**THE HAWKEYE** insures property against fire, lightning and tornadoes, and has done more business, paid more losses and has a larger surplus over all liabilities than any other Iowa company. It is purely a home institution, confining its business to Iowa alone. As to its standing among Iowa people, we refer to the above showing which speaks for itself.

Patronize Home Institutions and Industries is the watchword. Don't send your money out of the State when you can get a policy in one of the best Companies, Home or Foreign, by patronizing the **HAWKEYE INSURANCE CO.** of Des Moines, Iowa.

## ...THE CHICAGO LIFE...

Is evidently right in line of public demand. It provides short, plain, simple and honest Policy Contracts at a correct cost, and free from petty restrictions that frequently annoy the insured during life, the beneficiary after death, and the Agent ALWAYS. The insuring public demands insurance that CERTAINLY INSURES and does not want a printed "code of ifs and ands," in the form of useless restrictions and conditions.

Our steady and substantial growth of ASSETS AND SURPLUS is PROOF POSITIVE that the Chicago Life sells INSURED INSURANCE!

# INTRODUCTORY.

It is with great pleasure that the Publishers of the Des Moines City Directory present to the Public their seventh annual volume of our Great City. We hope that it will be appreciated by them as we trust it is up to date in every respect. We regret, however, that there are some in all communities who unjustly criticise a Directory when they know nothing of the difficulties experienced in collecting the information and compiling a work of this magnitude. We have very little of this to contend with, however and are content with the knowledge that those who most frequently use the Directory, and are consequently the most competent to pass upon its merits, appreciate our work and are always ready to commend its trustworthiness. The City Directory, if made complete and reliable, is, without exception, the book most frequently consulted by the majority of citizens of every class, and hence is the most useful and indispensable. The information contained in the present volume has been collected with the greatest care by the most competent men accessible; the compilation, proof-reading and printing has been superintended by ourselves, and we confidently believe the work cannot be excelled, either in point of reliability or in its general appearance.

## POPULATION.

Des Moines may feel proud of her increase in the population during the past year. While there has been a decrease in some cities Des Moines has added 2,185 people to her population the gain during the past year was 500—more than the annual average in the past four years. This volume contains by actual count 29,509 names; we deduct from this 5 per cent for firm names and removals which leave us 28,034; this number multiplied by  $2\frac{1}{2}$ , the smallest multiple used, give us a population of 70,085. Absolute accuracy is not to be attained yet every endeavor that care and experience could suggest has been made to insure this result.

Yours Respectfully,

Nov. 23, 1898.

## STREET AND AVENUE GUIDE.

### EXPLANATION.

IN ARRANGING "The Street and Avenue Guide" for the City of Des Moines, the following plan has been adopted (and approved by the City Engineer): All streets on the west side of the Des Moines river have been designated by the same name or number alone, abolishing the prefix of west except in the case of numbered streets south of Vine; for example: Walnut, Vine, Grand av., Locust. In the case of the numbered streets, all north of Vine are designated as 1st, 2d, 3d, 4th, etc., and south of Vine, w so 1st, w so 2d, w so 3d, etc. Streets east of the Des Moines river which run through to the west side of and beyond the river are designated as e Vine, e Court av, e Walnut, e Locust, etc.; the numbered streets north of Vine as e 1st, e 2d, e 3d, e 4th, etc., and south of Vine as e so 1st, e so 2d, e so 3d, etc. Streets on either side of the Des Moines river which do not run through from west to east Des Moines, are designated by their names without any prefix; for example: Maple, Buchanan, School, University, etc. If located south of the Coon river, the name of the street is followed by (S D M); if north of the Des Moines river (Highland Park).

The following abbreviations are used: Av for avenue, al for alley, bet for between, boul for boulevard, D M for Des Moines, n for north, rd for road, s for south, w for west, e for east, nw for northwest, sw for southwest, junc for junction, opp for opposite, dr for drive.

Following the description of each street or avenue will be found the names of intersecting streets, in the order of their intersection.

The streets as located follow in alphabetical order, with the streets that intersect;

### DIRECTIONS FOR GIVING AN ALARM OF FIRE.

1. To give an alarm, go to the nearest box, break glass, turn key, open the door, pull the hook to the bottom of the slot once and let go; then close the door.

2. Do not pull the hook if the fire bells or small bell in the box is striking, as that indicates that an alarm has already been given.

3. Be particular to remain at the box until the arrival of an officer of the

fire department, who will release the key, or if circumstances will not permit remaining, then the proper officer will return the key to the holder as soon as convenient.

#### RATES OF FARE AUTHORIZED BY CITY ORDINANCES RELATIVE TO PUBLIC CARRIAGES, ETC.

Section 13. That the owner or driver of any omnibus, carriage, cab, herdie, or other vehicle licensed under this chapter, shall be entitled to demand and receive not to exceed twenty-five cents (25c) for each passenger conveyed any distance not exceeding one mile.

For each passenger over one mile and under two miles, fifty cents (50c). For each passenger with truck, one mile and under two miles, seventy-five cents (75c). Each additional passenger of the same party, twenty-five cents (25c). Provided that sixteen blocks shall constitute one mile. And they shall be entitled to add to the above rate when the hours of 12 o'clock at night and 6 a. m., twenty-five cents for each passenger. And are entitled to charge when employed by the hour, one and 50-100 dollars (\$1.50) for the first hour, and for each additional hour, one dollar (\$1); and they are hereby required to convey any passenger carried by them to such part of the city as he or she may require.

Children under five years of age accompanying any person who has paid full fare shall not be charged fare, and children between the ages of five and ten years shall be charged half fare. Any person violating any of the provisions of this ordinance shall be subject to a fine of not less than five nor more than one hundred dollars.

### COURTS.

United States Court of the Southern District of Iowa—The United States is divided into nine judicial circuits, in each of which a circuit court is held for each district within each circuit. The act of congress approved April 10th, 1869, provides as follows: "The circuit court in each circuit shall be held by the justice of the supreme court allotted to the circuit, or by the circuit judge of the circuit, or by the district judge of the district, sitting alone, or by the justice of the supreme court and circuit judge sitting together, in which case the justice of the supreme court shall preside, or in the absence of either of them, by the other (who shall preside) and the district judge.

The state of Iowa is divided into two judicial districts. The courts for the southern district are held in district court rooms, U. S. government building at Des Moines, second Tuesday in May and third Tuesday in November. At Council Bluffs, second Tuesday in March and third Tuesday in September. At Keokuk second Tuesday in April and third Tuesday in October. Both districts are attached to the Eighth judicial district, which comprises the states of Minnesota, North and South Dakota, Nebraska, Iowa, Missouri, Colorado, Arkansas and Kansas.

Justice David J. Brewer has been allotted to the Eighth judicial circuit, and Hon. Henry C. Caldwell, Hon. Walter S. Sanborn, Hon. Amos M. Thayer, are circuit Judges of said court. The courts for the southern district are organized as follows:

# REGISTER

OF THE UNITED STATES AND CANADA.

The fifth revised edition, issued in 1898, contains the names and addresses of over 112,000 PHYSICIANS, over 1,500 HOSPITALS, ASYLUMS and SANITARIUMS, a list of all MEDICAL COLLEGES in the United States and Canada, a synopsis of the law for regulating the practice of medicine, the GRADUATION PARTICULARS of each physician, and the SCHOOL PRACTICED, and will include a vast amount of other information of special interest to the medical profession, calculated to insure for it a large and general circulation throughout the whole country.

If you have anything to say to the 112,000 Physicians in the United States and Canada there is no better or more economical way of saying it to them than by an advertisement in the Register, or if you wish to send them your circulars, the Register contains the list in convenient form for addressing.

## PRESS OPINIONS.

The piano solo by Prof. Emil Enna was rendered in a masterly and delightful manner. He proved to be perfect in his profession.—Story City "Viseng-utten."

Prof. Emil Enna's piano solos were a musical treat. The house was filled, and everything a great success.—Story City "Messenger."

Prof. Emil Enna's playing is without doubt of the highest standard.—Lake Mills "Republikaneun."

Prof. Emil Enna, lately from Copenhagen, Denmark, is indeed a wonderful musician. At a recital given in Des Moines last week he took the society by storm and was spoken of as easily surpassing anything they had heard there since Paderewski was there. Although Prof. Enna has not been here very long—only since early last fall—he is ranked as the best pianist in the state.—Humboldt "Republican."

The piano solo by Enna was a wonderful number. Enna is one of the finest musicians in the country, and is bound to prominence. His part of the program was a big feature.—"Iowa State Register."

Last fall there arrived in this city a young pianist whose family name has of late years become a household word in all musical circles. August Enna, the Danish composer, is a composer of international fame; there was no reason, then, why Professor Emil Enna should not be kindly received wherever classical music is appreciated.

Kindly received,—yes, for the "new world" is welcoming any one whose honest endeavor finds issue on its shores; and yet, if Emil Enna had been merely a man without special gifts, his name might not have passed from man to man, however perfect a gentleman he might have been.

To me Professor Enna has brought a welcome touch from old haunts,—from the little country where the air is full of quaint whispers and old poesy. I should have welcomed him as a dane, but I have welcomed him tenfold, because his musical talent is one that this great and magnificent country to which both he and I have emigrated, might proudly nurse and foster.

Musical art is international. All manifestations of art will build up or break down our heart structures, no matter from where they emanate. Thus Emil Enna's musical talent may wield its power here as well as anywhere else.

I should not put down these lines unless they were prompted by the belief that Professor Enna's talent is wielded in a beneficial manner,—that his touch is elevating. Others have admired his masterly technique, his power of execution, his accuracy. So do I, myself. But souls that crave poetical feeling, truth of expression, and sanity in execution, wish to enjoy as well as to admire.

Emil Enna is a pianist of truth as well as sanity. We admire him, but we enjoy his talent as well. He has had the good fortune of composing a few things that are inspired with true poetical feeling.

I predict and expect that Emil Enna's talent will gain for him a host of friends. He has introduced himself here in a manner worthy of his excellent name and felicitous endorsement. Let us gather around him and assist him in finding the larger field of activity that caused him to seek us.

As a countryman; as a musician; as an interpreter of true and sane poetry, I am proud of him.—J. C. Bay in "Plain Talk."

## PRESS OPINIONS.

The audience was quickly captivated by Prof. Emil Enna's ability as a pianist. He is undoubtedly an artist in his line of work. His playing is vigorous, yet clear and pleasing, and he renders the most difficult compositions with perfect ease and exactness.—“Plain Talk.”

Prof. Enna is a pianist ranking among the best pianists and the audience was more than delighted with the display of his ability.—Colfax “Tribune.”

Piano work by Prof. Emil Enna was of high grade.—“Daily News.”

Emil Enna is a most vigorous musician, with rare gifts and enviable Euro-

pean training. He is an honor of the nation he represents. His playing is decidedly classical, clear and pleasing, and his technical ease is masterly. He interprets with warmth and intensity the great composers. His rendering is faultless, and his music rich in expression and feeling.—“Republican.”

Mr. Enna is without doubt a musician of high grade and took the audience by storm.—“Skandinavian,” Chicago.

Prof. Emil Enna played with wonderful ability his own compositions, and rendered the most difficult parts with perfect exactness. He took the audience by storm. He is truly an artist of high rank.—“South Dakota Ekko.”

# ESSEX INSTITUTE.

PRESENTED BY

William H. Gove

The Library Committee shall divide the books and other articles belonging to the Library into three classes, namely, (a) those which are not to be removed from the building; (b) those which may be taken only by written permission of three members of the committee; (c) those which may circulate under the following rules.

Members shall be entitled to take from the Library two folio or quarto volumes, or four volumes of lesser fold, upon having them recorded, and promising to make good any damage they sustain, while in their possession, and to replace the same if lost, or pay a sum fixed by the Library Committee.

No person shall lend any book belonging to the Institute, excepting to a member, under a penalty of one dollar for each offence.

The Library Committee may allow members to take more than the allotted number of books upon a written application.

No person shall detain any book longer than four weeks from the Library, if notified that the same is wanted by another member, under a penalty of five cents per day, and no volume shall be detained longer than three months at one time under the same penalty.

The Library shall have power by order of the Library Committee to call in any volume after it has been retained by a member for ten days.

On or before April fifteenth, all books shall be returned to the Library, and a penalty of five cents per day shall be imposed for each volume detained.

No book shall be allowed to circulate until one month after its receipt.

THE HAWKEYE insures property against fire, lightning and tornadoes, and has done more business, paid more losses and has a larger surplus over all liabilities than any other Iowa company. It is purely a home institution, confining its business to Iowa alone. As to its standing among Iowa people, we refer to the above showing, which speaks for itself. The motto of the Home Institutions and Industries is the watchword. Don't send your money out of the State when you can get a policy in one of the best Companies, Home or Foreign, by patronizing the HAWKEYE INSURANCE CO. of Des Moines, Iowa.

# WASHINGTON LIFE INSURANCE CO.

## OF NEW YORK.

W. A. BREWER, JR.,  
PRESIDENT,  
ORGANIZED IN 1860.

G. H. BREWER,  
SECRETARY.  
ASSETS NOW OVER \$15,500,000.

**T**HE 39th Annual Statement of THE WASHINGTON is an exhibit of the COMPANY'S solid and compact strength epitomized. THE COMPANY'S Building at 101 Broadway, in its architectural beauty, the substantial character of the structure, its perfect adaption to the COMPANY'S business, and the light and attractive offices supplied to the public in the very heart of the City's financial center, furnishes undoubted evidence of the wisdom shown in the selection of the location. The fact that the entire building is well rented is enough to say of the nature of the investment.

THE sums paid to policy-holders in 1898 aggregate \$1,522,153.24, in which amount are included dividends and other items of "returned premiums." The assets on the first day of January had increased during the year in the sum of \$555,926.82 to \$15,082,226.21, composed of Municipal and other Bonds, First Mortgage Loans on New York City property, Real Estate and Loans to the holders of the Company's policies.

THE record of the year shows an increase of nearly \$2,000,000 in amount of insurance written, and gains in assets, in income, in surplus and in volume of business.

THE liberal and just treatment of its members in the prompt payment of claims, dividends, and surrender values, is a well established usage of the Company of many years duration, dating back to the very commencement of its business.

THE unhesitating readiness of THE WASHINGTON to grant loans on its policies, has proved of calculable value in preventing the loss of the insurance. The knowledge of these essential truths, has convinced the public that good insurance may be had, and where to get it.

*In the last five years THE WASHINGTON paid a larger amount to policy-holders in return premiums (i. e., for dividends and surrendered policies) proportionate to premiums received, than the average of all other life insurance companies in this country.*

## CURES WITHOUT MEDICINE

### OXYGEN HOME TREATMENT

**THE ELECTROPOISE WILL CURE WHEN ALL ELSE FAILS—IT IS A POSITIVE FACT, AND SO CLAIMED BY OUR BEST CITIZENS.**

#### Results Obtained by the Use of the Electropoise.

The force generated by the use of the Electropoise is a thermal electrical current, which acts upon each tissue-cell in the body through the nerves which dilate the arteries, when the polarizer is placed in cold water.

The dilation of the arteries—the resulting stimulation of the tissue cells—induces more active nutritive processes, increase the heat of the body, promotes normal action of the digestive organs, healthy action of the lungs, bowels and kidneys, and supplies much more oxygen by deepening the respiratory act.

In supplying new force to the nerve centers which regulate the nutrition of the body, by the Electropoise, we render the help which is required in every form of disease.

Balance the circulation throughout the body, and at the same time introduce more oxygen, and we can to a large extent prevent disease, or abolish it if already established.

This instrument will last a lifetime and keep an entire family in good health. You cannot miss it in getting one of these instruments. We know every family should have an Electropoise in their home.

This is the original instrument and perfect in its work. Beware of imitations. Do not neglect to get one of our free booklets of explanation and testimonials.

### **Grand Trunk New Single Arch Double Track Steel Bridge Over the Niagara River.**

The new bridge is a single steel arch of 550 feet in length, supplemented by a trussed span, at either end, of 115 feet in length. This with the approaches, makes the total length of the bridge slightly over 1,100 feet. The railway tracks surmounting the bridge are 252 feet above the water. The bridge has two decks or floors. On the upper floor there are two tracks for railway purposes exclusively, while the lower floor contains a wide central carriageway, double electric railway tracks, and on either side passageway for pedestrians.

As an evidence of the enormous strength of this beautiful structure, the arch is designed to carry on each railway track a load of two locomotives with four pairs of drivers each and 40,000 pounds on each pair, followed by a train of 3,500 pounds per running foot, and is designed to carry in addition a live load of 3,000 pounds per running foot on the lower floor. The general public will, however, probably be better able to arrive at a correct understanding of the enormous sustaining power of the new bridge by the fact that it is calculated to sustain a weight of something over six times the sustaining capacity of the historic Suspension Bridge, which it replaces.
